Under the guidance of Dr. Madhuri Shelke (Principal, INER, Pune) and Subject In-charge Ms. Madhuri Kotkar conducted the skill station on perineal care

At the beginning of the skill station, knowledge was assessed by asking various questions about PNC care. The goal of program was to improve the knowledge of the students related health assessment of postnatal mother and identify need of baby and mother.

The first station of is about scenario in that scenario regarding the PNC mother was given i.e., Mrs. Leela, 28-year-old Postnatal 3rd day with normal vaginal delivery. She has been healthy in this pregnancy and has no major medical problems overall. She is admitted 4 days ago with complaints of labour pains. You have to perform perineal care for Mrs. Leela and identify need of patient

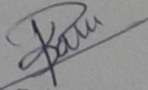

The second table was for procedure in that perineal care was in this station first four preparation was explained preparation of unit, preparation of article, preparation of patient and preparation of self and the though procedure was explained using checklist.

The third station was about communication i.e. between patient and nurse by giving health education to patient about self-care, hygiene and as per the need

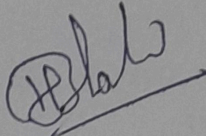

The fourth station was about Viva – discuss the findings which was observed during procedure and record and report the procedure in nurses notes

After the session, again questions were asked to the students to assess the effectiveness of Skill station.

The session was ended with vote of thanks by Ms. Priyanka Sable.
